ANNUAL SCHOOL MEETING
March 11, 1980

The meeting was called to order at 8:30 P.M. by the Moderator, Mr. James J. Page. The School Warrant was read by Mr. Page and the following action was then taken on the articles in the warrant.

- Article 1. James J. Page was nominated for the office of Moderator for the coming year. The motion was seconded and the clerk cast one ballot.
- Article 2. Jean T. Longpre was nominated for the office of Clerk for the ensuing year. The motion was seconded and the Moderator cast one ballot.
- Article 3. Jeannette Enderson was nominated for the position of Member of the School Board for a term of three (3) years. The motion was seconded and the clerk cast one ballot.
- Article 4. Maxine Tyler was nominated for the office of Treasurer for the ensuing year. The motion was seconded and the clerk cast one ballot.
- Article 5. Jeannette Enderson, Member of the School Board, stated that the School Board salaries were listed in the budget. The office of Truant Officer is filled by the Constable and, as his services have not been needed for several years, there is no salary. A motion was made and seconded to pass over Article 5. Vote in the affirmative.
- Article 6. Motion made and seconded to pass over Article 6. Vote in the affirmative.
- Article 7. Motion made and seconded to pass over Article 7. Vote in the affirmative.
- Article 8. Priscilla Boutin, Chairperson of the School Board explained that four children had moved out of town and seven children had moved into town during the school year. Mr. Harold Haskins, Assistant Superintendent of Schools explained that three pupils had entered the school system in October and there had been no allowance for them in the budget. He also stated that one handicapped youngster had been sent to the Crotched Mountain Rehabilitation Center for vocational training at a cost of \$1,400. It was then moved and seconded to raise and appropriate the sum of \$2,400. The motion was accepted with one dissenting vote.
- Article 9. James Page asked Mr. Haskins for clarification of the \$2,400. deficit. Mr. Haskins explained that the deficit applies to the current school year and that the proposed budget of \$86,766.27 refers to the 1980-1981 school year.

The matter of Pupil Transportation was then brought up and

Arland Robitzer asked for an explanation for the reason for a contingency fund. Priscilla Boutin explained that it was to cover possible gas price increases. Mr. Robitzer then said that he thought it a poor idea to put it in the budget and suggested that it could be better handled as a deficit the following year. A motion was then made and seconded that Contracted Services be \$11,000.00 instead of \$12,000.00 and there be no Contingency fund. A ballot vote was taken with 6 yes votes and 11 no votes. The item remains as printed in the Annual Report.

A discussion then followed on tuition costs. Priscilla Boutin explained that costs next year would go up approximately \$100.00 for each level. Mr. Haskins then explained that the projected costs would be as follows:

No. of Pupils	Cost per pupil	Total
1 Kindergarten	\$ 537.50	\$ 537.50
24 Elementary	1,075.00	25,800.00
12 Jr. High	1,450.00	17,400.00
16 Sr. High	1,750.00	28,000.00
		<hr/>
		\$71,737.00

Mr. Haskins then passed out circulars showing how Benton costs compare with those of other communities in the area. Mr. Robitzer asked about the cost of transporting Kindergarten children. It was explained that there are three children and that they are transported one way by their parents and that they ride the school bus the other way but at the expense of their parents.

A motion was then made and seconded that the printed budget figure for Contracted Services be \$11,000.00 instead of \$12,000.00 The motion carried and the figure will be \$1,000.00 less than the amount published in the Annual Report.

A motion was then made and seconded that the district raise and appropriate the sum of \$85,677.27 for the support of schools, for the salaries of school district officers, and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the State Foundation Aid fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

Article 10. Following some discussion with Mr. Haskins on basketball charges a motion was made and seconded to adjourn. Motion carried. The meeting adjourned at 9:10 P.M.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

I herewith submit my sixteenth annual report to the voters of the Monroe School District.

All of a sudden it is very popular to be known as a staunch right wing conservative interested in many causes, such as: exploitation of fear and anger of a society in transition; budget slashing in social services area such as hot lunch program, compensatory education, handicapped education, social security, and many others.

It is true that education has cost more than any other service during the past twenty years but, also, take a long hard look at what public education has been asked and told to accomplish during that period of time. We have been practically told to "bring up" America's young people from the cradle to eighteen years of age.

We, the schools, are not equipped to do everything everyone expects us to do. If we are expected to provide human services, educational services, psychological services, health services, and others; we need the help of the entire community not only in terms of financial support, but in moral and physical support. If we are to change, we must all redefine our roles and not simply say or think, "Let the school do it."

Some of our politicians have commented that "The New Deal died on November 5." If the New Deal did die then what will be the consequence of the programs initiated by Lyndon Johnson (Head Start, Title I, etc.) to those by James E. Carter. They are still law, and until someone changes the law who will support them if funds are non-existent?

If President Reagan and his budget cutters seek to trim those promised billions from the federal budget, they should wield their axes gingerly. The administration will be challenged to develop new programs for disadvantaged students—programs that fit into the conservative philosophy without negating investments that have already been made. The Congress has opened its heart and soul to the handicapped in this country by writing and implementing a law that serves as the Magna Carta for those less fortunate members of our society, but they, the Congress, have sat on their pocketbooks as far as paying for the programs they have instituted.

An interesting notion is developing in Congress and that is a form of revenue sharing for education: the "block grant." The federal government now has scores of grant programs in education, some large and most small. But, currently, each program has its own regulation, its own application forms, and its own paperwork requirements. Under handicapped education, for example, there are now separate grant programs for research, teacher training, "model projects," preschool programs, and others.

There must be a better way to help schools, and the present occupant of the White House thinks he has one. The proposition is to lump money for the small programs into a few large categories, such as aid for the handicapped, vocational education and compensatory education. Why not give each state one block grant for each category of education and let the state spend the money as it chooses?

The bottom line in this report deals with the realization of how to deal with programs already functioning with federal and state dollars if we suddenly find our funds cut from under us. Some areas of concern.

1. School lunch and milk programs. This program has already been cut and with federal monies eliminated, how will the programs continue?
2. Handicapped Programs. If we are to continue the programs we have, we will need funding from both state and federal sources.
3. Driver Education. State monies are in jeopardy. Do we continue public support, or let the private sector take over?
4. Compensatory Education. Title I has been singled out as a program to be cut by 50%.
5. Vocational Education. Again, an area which will receive close scrutiny.
6. School Library Services. Funds are certain to be eliminated, or the whole program scrapped.

A more positive aspect of this report deals with the S.A.U. #23 Multi-Handicapped Center located at the Woodsville Elementary School. We are providing services for thirteen youngsters from various districts in the Unit who otherwise would have to be tuitioned to other centers in the area. From a financial point of view, with the advent of the Center we have been able to save approximately \$30,000.00 in expenditures for individual districts. From an educational viewpoint, we see tremendous social, personal and educational achievement in these youngsters.

Although this Center is catering to the multi-handicapped, we are in the discussion stages of expanding the services to possibly the elderly, the gifted and talented, the infant stimulation programs, and others. We feel we have the vehicle to provide the service, but must now develop the logistics for the entire operation. This will not come to fruition immediately, but is part and parcel of our long range plans to include all agencies in our S.A.U. for services to infants and the elderly.

There has been considerable debate as to the tuition Benton is paying to the Haverhill Cooperative. Tuition is based on the per pupil cost of the receiving district and reflects increases in local district costs.

When one compares the per pupil tuition charge over a period of years, one can only surmise that the charge is not excessive when compared to other schools in the area, but that the large increases are due to the increased number of children. Voters will please read the enclosed facts and figures which have been researched over a period from 1970-71 to 1980-81.

May I express my appreciation to the school board and voters of Benton for their fine support during the past year.

Respectfully submitted,
NORMAN H. MULLEN
Superintendent of Schools

REPORT OF FOREST FIRE WARDEN AND STATE FOREST FIRE SERVICE

Forest Fire Prevention: Your Business, Our Business, Good Business. Forest fire prevention slogans have been seen in association with Smokey Bear since the late nineteen forties when a national effort to check the spread of forest fires was implemented.

New Hampshire residents recognized that forest fire prevention and suppression was the responsibility of every citizen, a half century before this national campaign, when our legislature established our first forest fire laws in 1903. Since that date, the State has appointed a town/city forest fire warden who is responsible for forest fire law enforcement in his municipality.

All fires kindled out of doors when there is no snow on the ground must be approved in writing by the forest fire warden before being kindled. All forest fires must be suppressed by the warden and his deputies as soon as they are reported. The cost of fire suppression is shared jointly by the town/city and the State of New Hampshire, as are forest fire prevention and forest fire training costs.

This state and local municipality cooperative forest fire program has given New Hampshire one of the best forest fire records in the United States.
